

Users Tutorial

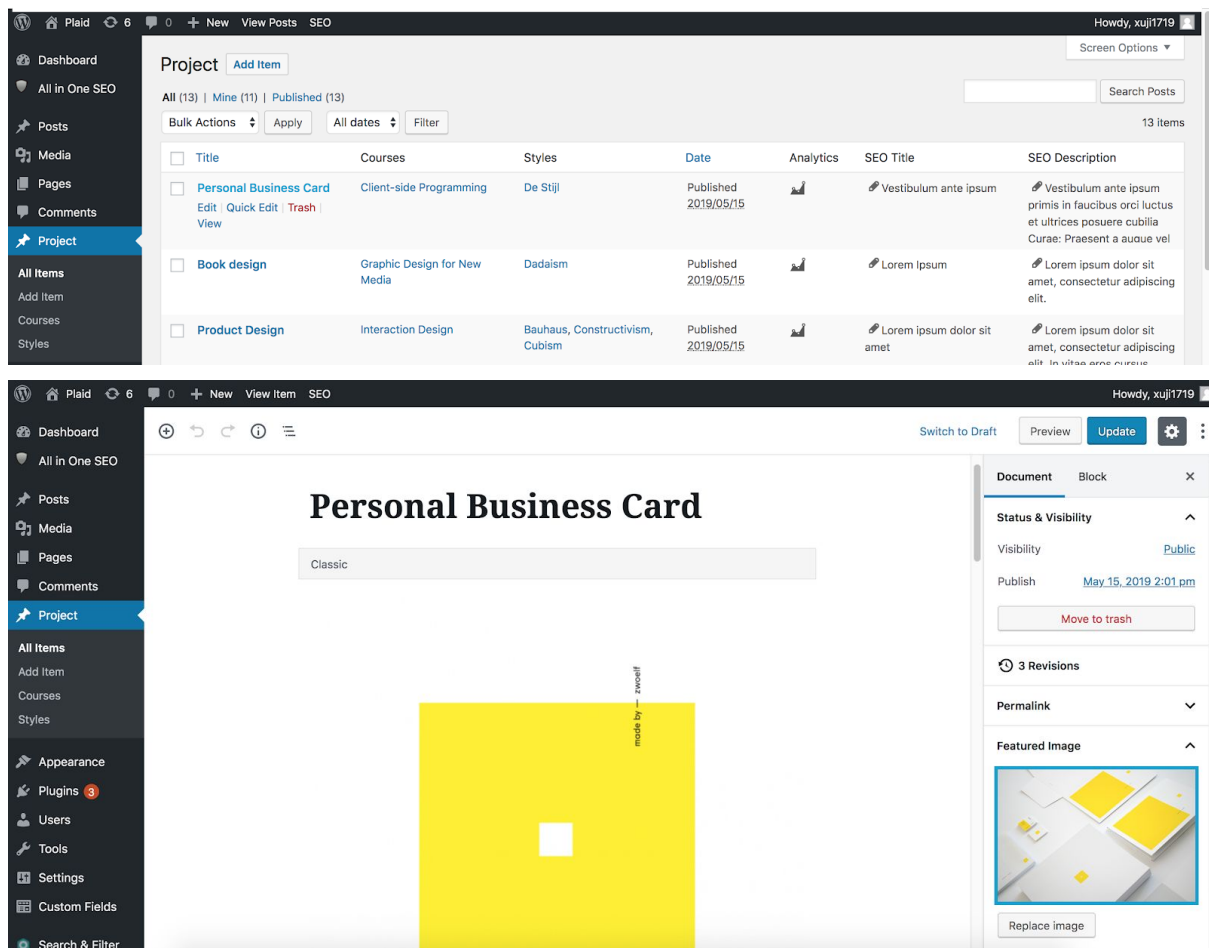

❏ Edit Previous Project

Firstly, users should login with our username and password (Username: xuji1719 Password: Latn706).

A screenshot of the WordPress login interface. At the top center is the WordPress logo, a blue 'W' inside a circle. Below it is a white login box with a light blue border. Inside the box, there are two input fields: the first is labeled 'Username or Email Address' and contains the text 'xuji1719'; the second is labeled 'Password' and contains seven black dots. Below the password field is a checkbox labeled 'Remember Me'. To the right of the checkbox is a blue button with white text that says 'Log In'. Below the login box, there is a link that says 'Lost your password?' and a link with a left-pointing arrow that says 'Back to Plaid'.

After login, users are in WP/admin page. If users want to edit some projects which already existed they can click menu in the left side - 'Project'. Users will find out all projects which be displayed on this page. Then, click 'Edit' page, it will automatically jump to 'Project' - 'Add Item Page'.

Add Item Page's main function is to edit the project's every details. Title and project content also be included. Also, users can change project's featured image as well. Just click 'Replace Image' then choose any images you like in the Media Library.

Moreover, scroll down this page users can edit more sections such as 'Project's Author' and 'Enrollment Years'. Also, users can fix the project's characteristics, such as styles and courses which are shown in filters. Add or fix descriptions or SEO also works in this page.

Add New Work Course

Name

The name is how it appears on your site.

Slug

The "slug" is the URL-friendly version of the name. It is usually all lowercase and contains only letters, numbers, and hyphens.

Parent Course

None

Assign a parent term to create a hierarchy. The term Jazz, for example, would be the parent of Bebop and Big Band.

Description

The description is not prominent by default; however, some themes may show it.
